DETIA DEGESCH
GROUP

Your global partner in stored product protection

Detia Degesch Group is a mid-sized, internationally leading group of companies operating in the field of stored product protection. Its products ensure the global availability of food.

The corporate headquarter of Detia Degesch Group is located in Laudenbach (Rhine-Neckar metropolitan region). Nowadays, the Group partners with customers in more than 120 countries.

Detia Degesch Group develops and distributes products for the agricultural sector and industry. Our broadly diversified portfolio is effective in combating damage to stocks, material and the respective hygiene arrangements.

Building on lessons learned in the professional field, we have moreover developed a comprehensive range of environmentally-compatible and efficient products for private pest control in and around the home and garden.

Our corporate group has been partnering multi-nationals with private label offerings for many years.

The latest findings from our own research and development, plus continuous improvement efforts, play their part in ensuring that the products meet customer requirements.

The success of the family-run business builds on a long-term mindset, a willingness to keep on investing, and financial independence. Quality, expertise and innovation have been family traditions for more than 200 years.

Just some of Detia Degesch Group's brands at a glance:

- » Phostoxin®
- » Magtoxin®
- » Arvalin®
- » DELU®
